ABOUT US

At GRID Accounting, we exist to turn complex numbers into clear, actionable insights. Born out of decades of hands-on corporate finance experience, we understand that accurate data (and the systems that create it) are the foundation of confident decision-making.

Our mission is simple: empower finance leaders to spend less time wrestling with the books and more time steering strategy.

We specialise in Financial Controller (FC) support that bridges the gap between day-to-day accounting and high-level financial leadership. Whether we're optimising accounting software, refining month-end reporting, or strengthening internal controls, we work side by side with CFOs, fractional Finance Directors, and in-house finance teams to deliver the precision and reliability that strategic growth demands.

What sets us apart is our blend of operational rigour and strategic awareness. Every engagement is led by seasoned professionals who bring both technical know-how and commercial insight, ensuring that your numbers are not only right but also ready to fuel big-picture thinking. With GRID, you gain a proactive partner committed to accuracy, transparency, and long-term value, so your finance function becomes a catalyst for progress, not a bottleneck.

INTRODUCING OUR FC SUPPORT SOLUTION

At GRID, we understand the evolving needs of modern finance teams. As businesses scale, CFOs are expected to be strategic leaders, yet many find themselves consumed by operational tasks.

That's where our Financial Controller (FC) services come in.

We provide skilled FC support that integrates seamlessly between your internal finance team and CFO function. Whether you already have a bookkeeper or accountant in place, we enhance the accuracy, structure, and clarity of your financial operations, freeing up your CFO to focus on what matters most.

ARE YOU A CFO WHO...

- ☒ Spends **80% of your time fixing the numbers** instead of guiding business strategy?
- ☒ Struggles to find qualified staff to **maintain financial control** and reporting integrity?
- ☒ Is stuck in the day-to-day, with **little time left** for big-picture planning?

**SPEND MORE TIME
ON STRATEGY.**

**LET GRID TAKE CARE
OF THE NUMBERS.**

WHAT WE OFFER
